MODULE 1: QUIZ QUESTIONS

1. Can we integrate Spark with Hadoop?

   a) Yes
   b) No

2. How does Spark integrate with Hadoop?

   a) YARN
   b) MESOS
   c) kafka
   d) TEJ

3. Spark runs on

   a) Hadoop
   b) Mesos
   c) Standalone
   d) In the cloud
   e) All the above

4. Scala REPL acts as Scala Interpreter

   a) True
   b) False

5. Can AngularJS create single page applications?

   a) TRUE
   b) FALSE

6. Scala supports primitive and wrapper classes

   a) True
   b) False

7. Scala integrates with

   a) Object-oriented and functional programming.
   b) Only object-oriented
   c) Only functional programming
   d) None of these

8. In Scala every statement terminates by a semicolon

   a) True
   b) False

Solution

1. (a) Yes
2. (a) YARN
3. (e) All the above
4. (b) FALSE
5. (b) FALSE
6. (a) Object-oriented and functional programming.
7. (c) All of these
8. (b) False
